Queen 96"X108"	\$181.50	\$414.75
King 108"X108"	\$233.50	\$466.50

### QUILTING OPTIONS:

- Freehand quilting , Large Stipple or Meandering with Attitude: Freehand stitching over the entire quilt surface, ranging from small to large in scale. May be leaves, flowers, hearts, peacock feathers, etc. – **Commonly known as “edge to edge” and is my most popular and least expensive quilting.**
- Custom: Freestyle quilting, including continuous-curves, outlining, ruler work, separate designs in borders and sashings. (May be swags, stitch in the ditch, feathers, cross hatching, etc.) If turning the quilt is required or thread color change, this will be classified as “full custom quilting” where additional charges may apply. *Some smaller projects may be charged out on a per hour basis.*

- **Please note the above prices are only estimates and the final cost will depend on the quilting designs chosen. This will be discussed at the time your quilt is booked in.**

## OTHER SERVICES:

### Binding:

- **Machine 1/2 Binding:** 15¢ per inch. This procedure includes trimming the quilt, preparing the continuous binding (from 1 meter of your fabric) and stitching the binding to the quilt front, ready for you to turn it to the back and hand stitch down. You can honestly say that *YOU* finished this quilt!
- **Hand-finished binding:** 25¢ per inch in addition to machine 1/2 binding fee above. We finish the binding procedure for you by turning the binding to the back of the quilt and stitching it down with a fine invisible hand stitch.

### Batting:

- I carry a nice selection of batting for my customers at reasonable prices. Should you wish special batting, i.e. king size, black, etc. you are asked to supply what you require - a minimum of 6 inches larger than the top.

### **Quilt Preparation:**

**Please ensure that your back is pieced horizontally if possible, and is squared up before sending it to me so that it feeds evenly on the rollers when I load it. It makes for a smoother backing with no seam ridges.**

**Your backing and batting should measure *at least* 6" longer and 6" wider than the top. Example – if your quilt top is 100" x 100", then your backing and batting should be 106" x 106". This gives me a 3" margin all around the outside of the quilt top to allow for stretching and attaching to the rollers, leaving room for the side clamps. Please press all seams on completed top to ensure it is ready for quilting.**
